

Sohel Siddique Ashik

Software Engineer

PROFILE

Backend-focused Software Engineer with a CSE degree (DIU) and strong experience in Node.js/TypeScript, API development (REST/GraphQL), and AWS-managed services (AppSync, Lambda, DynamoDB, S3, Cognito). At Nyntax, I build compliance automation by integrating APIs and using browser automation (Puppeteer/CUA) to deliver accurate, scalable evidence collection and control testing. Strong problem-solver (350+ problems solved) with solid DSA fundamentals and a focus on clean, reliable backend systems.

EXPERIENCE

Software Engineer

Nyntax, Mirpur DOHS, Dhaka

12/2024 — Present

- Responsible for backend support using Express, Mongoose, and MongoDB, with a focus on enhancing system performance and reliability.
- Built compliance automation across 40+ platforms by integrating APIs and automating evidence collection, control testing, and workflow validation. Delivered compliance support for Delve (Y Combinator-backed) by building reliable automation for audit-ready evidence and control checks, using Puppeteer and CUA-based automation to improve accuracy, repeatability, and scalability across SOC 2, HIPAA, GDPR, and PCI.

Jr. Software Engineer

Doodle Inc. Mirpur DOHS, Dhaka

02/2024 – 11/2024

- Developed 80% of the admin panel for a large job site using React.js, Redux.js, and Tailwind, enhancing site performance.
- Improved AppSync query efficiency and integrated AWS service (Amplify, S3, DynamoDB, Cognito) for robust backend support.

PROJECTS

Enquire Space

2023

- Created an interactive website similar to Quora, featuring multimedia support and a rewarding system, enabling users to explore and share knowledge through various content formats.
 - Developed a platform where users can earn rewards for their valuable contributions, fostering an engaging and collaborative community.
- Live: <https://enquirespace.netlify.app>

Multiclass fake news detection using BiLSTM

2021

- Published a conference paper in September 2021.
- Live: <http://ceur-ws.org/Vol-2936/paper-33.pdf>

SKILLS

Soft Skills:

- Problem Solving
- Manual Testing
- Critical Thinking
- OOP

Hard Skills:

- JavaScript, TypeScript, C
- React.js, Next.js, Tailwind, Redux.js
- MongoDB, Mongoose, GraphQL
- NodeJS, Express.js, MySQL
- AWS (AppSync, Amplify, s3, Lambda)
- Visual Studio, JIRA

EDUCATION

BSc in CSE

Daffodil International University
Dhaka, Bangladesh

2019 — 2023

CGPA 3.60

HSC in Science

Ulipur Govt. College, Kurigram
2016 — 2018

SSC in Science

Ulipur M.S High School, Kurigram
2014 — 2016
